

CloudReplica® Sponsors the SLB Digital Forum 2024

Principality of Monaco, CloudReplica is one of five Openness Sponsors of the SLB Digital Forum 2024 and will participate as an exhibitor at the event that is being held in Monaco from September 16-19.

The Digital Forum is a premier event for SLB featuring speeches from leaders from some of the largest energy and technology organizations in the world, alongside cutting-edge digital technology for the energy industry. The event's theme is "Navigating new frontiers," and it will host more than 1,000 leaders, scientists, engineers from 200 companies and 61 countries. CloudReplica's flagship service Virtual – Move® will be featured in the CloudReplica booth for global industry leaders to experience it live, firsthand.

"Being an Openness Partner with SLB is the result of years of successful collaboration and innovation between our two companies, and this is a direct reflection of the strength of our partnership," said Bob Skiba CloudReplica's Founder and President.

About CloudReplica

Since its inception in early 2009 as one of the early movers in cloud service offerings, CloudReplica set a precedent with its groundbreaking approach to full server system state failover to the cloud. This was not just a leap forward in technology; it was a revolution that redefined data security, availability, and recovery across many industries.

With a service reach extending to more than 14 countries and partnerships with some of the largest companies in the energy sector including SLB, Exxon, Chevron, PETRONAS, and BP— CloudReplica's influence is both global and profound. Yet, despite its expansive reach, the focus remains unwavering: to serve the unique needs of each customer, fostering digital transformation journeys that are not just successful but also sustainable.
